JOSIAH TURNER, Jr., EDITOR.

WHAT GIRLS ARE COMING TO.

Ladies fashions, now-a-days,
Surely are astonishing;
People start in blank amaze,
Powers for admonishing;
Costumes are so weird and wild,
Men are two dismayed to quiz,
Fain they'd think they are beguiled,
And disordered vision 'tis,
Fiction fairly thin-gamy,
Tastes outrageous running to,
Wits we task but vainly ask,
What our girls are coming to?

Once in ample crinoline,
Round as hoops, very soon,
They diminish slim and lean,
Like the cup's attendant spoon,
Skirts must drag a yard behind
Sweeping crossings as they trail,
But in this there's reason mind—
What's a duck without a tail?
Slop, slop splatter, draggle tail,
Splashing, stead of shunning you,
Dangling ends and Grecian bends,
What our girls are coming to!

Was there e'er such jewelry,
As the present age endorses?
Ear-ring-tortured crossly,
Bottle jacks and sets of showers,
And 'tis whispered, (so you're warned)
Beauty (such is the complaint)
Won't attract if unadorned,
And to draw, has learned to paint;
Persian bloom and indigo,
With Sahara's magic dew,
This new style—pray do not smile—
Is what our girls are coming to!

MOUNTAIN SCENERY OF NORTH CAROLINA AND VIRGINIA.

A few months since we called the attention of our readers to an article in *Appleton's Journal* recommending the artists of the country to visit the unexplored mountain regions of Virginia and North Carolina and to transfer their beauties to canvass for the benefit of pleasure seekers and lovers of the grand and picturesque. The article has elicited several letters to the *Journal* on that subject, two of which, possessing unusual interest, appear in the number of August 27. One of these, dated Cambridgeport, Massachusetts, speaking of the scenery of Western North Carolina, says: "I have been there for years and assure any one from real knowledge that neither the Catskill, Green, nor White Mountains can begin to compare with those of Western North Carolina. Where the Blue Ridge, Cumberland and Alleghanies unite to form a perfect Switzerland in America many European gentlemen have declared in favor of this, and you will find English, Scotch and French families among these immortal hills."

The second letter is from Giles county, in this State, and gives a graphic description of the view from Bald Knob, "from which can be seen a general landscape rivalling that from Mount Washington."

Commenting upon these, the *Journal* says: We shall soon see hotels and mountain houses springing up on eligible points amid these grand hills and the travel that now sets so prssistently towards the Catskills and Adirondacks, in part at least, diverted to this region." It further announces that it has sent a special artist on a tour through the South whose illustrations will soon appear in its pages.

We feel convinced that the representations of the *Journal's* correspondents are not overdrawn and hope the day is not far distant when the scenes they describe shall be better known and appreciated. In these days of travel and sight-seeing the mountain regions of Virginia and North Carolina, abounding in grand and beautiful scenery, must become more attractive in future to tourists and visitors of cultivated tastes in proportion as the facilities for reaching them are improved.—*Richmond Whig.*

THE GARDEN OF EDEN.—A traveler in the East writes that the site of the Garden of Eden is, according to tradition, located at the junction of the Euphrates and Tigris, at an Arab village called Korneh. Scattered along the bank are about two hundred houses, made of reed and thatch, while on the extreme point, where the rivers meet, a shanty has been built for a telegraph station! It is (says) the *Churchman*) somewhat curious to think of telegraphs being sent to the Garden of Eden, and it removes a certain halo with which our imagination had surrounded the spot. But modern progress has penetrated those countries of the east which have long been in decay, and they are doubtless destined to undergo a wonderful resurrection.

A Chicago paper is responsible for the story that a few days since some boys in that city dropped an anvil weighing 200 pounds out of a fourth story window on the head of an African who was passing and he had them arrested. He said he was willing to let the boys have fun, but when they jammed a "gemman's" hat down over his eyes and spoiled it in that way, the law must take its course.

LAST year the South devoted the proceeds of 300,000 bales of cotton (averaging $100 a bale) to the purchase of bacon. The Southern papers are therefore urging their readers to raise more corn and hogs, even if they have to do so at the expense of raising less of the great staple. In fact, the South stands in need of a home made hog crop.

SIMMONS.—The late John Simmons, of Boston, who left $1,400,000 for the establishment of a female college, to be made available when the sum reaches $1,900,000, is a model American tradesman. He began life at 18, served with a brother in the clothing business for five years, and then set up for himself. "One Price" for goods was his rule from the start.

In Iowa a merchant sent a dunning letter to a man, who replied by return mail: "You say you are holding my note yet. That is all right—perfectly right. Just keep holding on to it, and if you find your hands slipping, spit on them and try it again. Yours, affectionately."

An Irishman saw a cat under a stone and he undertook to pull it out, but it happening to be one of the genus pole cat, Patrick was compelled to exclaim: "Howly mither! what has the baste been eating."

Two farmers in Kansas recenly had a law suit about seven pounds of butter. When the jury retired they took with them the butter, procured some crackers, ate them together, returned a verdict of "No cause for action.

"John, what's a latitudinarian?" "A latitudy, what I" "A latitudinarian." "A latitudenarian-demarium, Mr. Snow, is a man what ascertains de circumferocity ob de hemunsfear, and brings de exltree ob de erf opposite to de hub ob de universe."

Josh Billings says: 'Give the devil his due, reads well enough in a proverb; but what will become av you and me if this arrangement is carried out?'

'Wife,' said a broker, a few days ago 'do you think I shall ever be worth fifty thousand dollars?' 'Ain't I worth that to you?' said the confiding spouse. 'Yes, said the other half, 'but I don't put you out at interest.

DESIRABLE PROPERTY.
I WILL SELL OR EXCHANGE FOR GOOD city property one of the best Cotton and Grain Farms in Eastern North Carolina. The tract of land contains about twenty-two hundred acres, of which seven hundred acres are cleared, under fence and in good condition for cultivation. A large part of it is in cultivation this year. The soil is fertile, neighborhood good, labor cheap and plentiful. The dwelling house is large and commodious, with all necessary and convenient outhouses. The stables, Barns, Houses for laborers &c are good and numerous. This farm lies immediately on navigable water, and has passing through it a good water power, where there is now a Grist and Saw Mill and Cotton Gin. The place is desirable for conducting large Mercantile operations, and is a beautiful location for a town or colony. A Steamer passes every day, and touches at the wharf two hundred yards in front of the dwelling. The surrounding county is rich and improving, and settled by intelligent, refined and prosperous people. Address

THE PRESENT CONSTITUTION.

Suppose there was no public debt against North Carolina, could we live and prosper, under the State Constitution as it is? We think not. We believe in some important particulars it should be changed as soon as possible. To do this, a State Convention should be called at the earliest moment. But perhaps it would be wise to have a *restricted* Convention. *The conditions upon which the State was restored to the Union, however unjust those conditions were, should not be disturbed. The civil and political rights of every man, woman and child in the State must remain unaltered. No partiality or injurious distinction should be made because of race or color or previous condition. The colored people of the State may banish all fear upon this subject.* The Democrats and Conservatives of North Carolina are pledged to this, and their word is their bond. But there are various odious and injurious provisions in the new Constitution which must be changed. Our old Constitution in its general features, except in so far as the necessary protection to the equal rights of the colored citizen is concerned, is what the people want restored. The Constitution adopted by the Convention of 1865, which was rejected by the people, with some amendments to conform it to the Constitution of the United States would be all that is needed.

1. *The township system.*—This is very odious and expensive. Our old county governments, simple, cheap and efficient, must be restored. Our people are too poor to support so many officers. We want no pauper officers on our hands.

2. *Our Court system.*—With slight alterations our old cheap, simple Court system, County, Superior and Supreme Courts, with the time-honored distinction between law and equity must be re-established. Our people will understand nothing else in the next hundred years.

3. *Our Judiciary.*—Our people feel the need of returning to the old method of electing the Judges. Under that system every North Carolinian is proud of the history of our Judiciary. The new system and its history shames every true North Carolinian. Above all things, we want a pure, honest, learned and anti partizan Judiciary.

4. *Our Laws.*—The people desire that they shall be as few, plain and as simple as possible, "that the way faring man though a fool, need not err therein." Mild enough to avoid all cruelty, but strict and rigid enough to be a terror to evil-doers. The "Civil Code procedure" offends and oppresses all. Our people are not likely, under its operation, ever to learn their rights or their obligations under it. They say the old wine is better than the new.

5. *Our public charities.*—We believe in public charities, but the idea is supremely ridiculous and dishonest, when a State cannot pay her debts, nor pay the interest on them, to make heavy appropriations every year to educate every child in the State from 6 to 21 years of age, rich and poor, white and black, in the common schools, and at the Universities, at the public expense, and also to educate every mute and blind person, rich or poor, and provide for every insane person, rich and poor, at the public expense. Charity means providing for the needy and those who cannot take care of themselves, until they are able to do it. Every child in the State, white and black, rich or poor, ought to have the chance of being educated in the rudiments and essential parts of learning, between the ages of 7 and 14 or 16 at the public expense. But youths of both sexes and of both colors, ought to be made to understand that when they arrive at 14 or 16 years of age, they should study that important feature in education, *to learn to work*, that they may be independent. These are some of the important features to be changed. Others will occur to the reader.

TYRRELL COUNTY—CORRECTION.

In our summary of the counties in which the Radicals had made gains at the late election, we put down the county of Tyrrell as one. The facts, which we then did not know, show this to be a mistake, and we cheerfully make the correction.

Seymour carried the county in 1868 by 144 majority; Judge Shipp carried it by 101, making the Conservative majority 43 less than in 1868. Since 1868 two precincts—Croatan and East Lake—have been cut off to form the county of Dare. At the late election Croatan gave Shipp 53 and Phillips *none;* East Lake gave Shipp about 10 majority; add these 63 votes to the 101, and we have a *gain* of 19 in the county as it was in 1868.

THE VACANCY.

The death of Mr. Hodge creates a vacancy in the House of Representatives from this county. The Conservatives should run their strongest man for the position. It seems to be understood that the Executive Committee of the County should make the nomination, instead of calling a County Convention. Care should be taken in the selection. We can elect our man if this is done. The committee should be called together at an early day for consultation.

VISIT TO GREENSBORO.

We were suddenly and unexpectedly called from our post, on Monday, by the peculiar state of affairs and the strategetic movements of Kirk and his Executive and Judicial aiders and abettors. We thought our sheriff, Tom from Boston, had a warrant to arrest Kirk in any county, save and excepting Caswell and Alamance, but we learned late Monday evening that Timothy had returned the warrant on the 10th of September as directed to Judges Dick and Settle at Greensboro.

We visited Greensboro and obtained warrants for the sheriffs of Guilford and Rowan to arrest Kirk, but not in Caswell or Alamance, for these are spots sacred to Kirk, where he can hang Rogers, Patton and Murray again and they have no remedy or redress, but where the President of the League W. W. Holden, can have for himself and his tools, through the very Judges who refused to have Kirk arrested, full immunity, and yet have any other citizen arrested by a nod.

Kirk's victims cannot arrest Kirk, but Holden and Kirk can arrest their victims. Oh, justice whither hast thou fled!

We learn that Kirk was at Graham with some fifty men; it was supposed that he would ride the only horse he has retained through Caswell into Virginia. The Judges and the Executive have prepared the way for the escape of this bad man; public justice will yet make them answer for the crimes of Kirk, and their connivance and assistance in making his escape. The Legislature acts for the people; through that body the backers and abettors of Kirk will be impeached and punished.

Greensboro' has as few idle men in it as any town in the State. Every body works, and this is the true secret of the success and prosperity of the place. Albright works the press of the city and gives them through the *Patriot* good reading and the latest news. At night the band and the young men honored us with a serenade, to which we replied in a speech, telling them that thirty years ago, as a school boy, we knew every place upon the streets of their town; we knew Morehead and Gilmer, then in their prime of manhood and usefulness, honored by all, now mourned by all. Such men are not given to every day, age or generation. Guilford will not soon look upon their like again. Among the good men of that day, we remember father Paisly, Dr. Mebane, Dr. Wilson and Mr. Gretter. Under the influence and teachings of such men the town, county and State, prospered and was happy. Those days and those men have gone forever, but their memory and their bright examples live as a rich legacy to their descendants. Now in their place we have Tourgee and Welker and tithes and taxes.

We also told them how Judge Dick had misconstrued the old Mosaic law, giving refuge to Kirk and his men, and denying justice and protection to the victims of Kirk and Holden. We talked about night meetings, Ku Klux and Leagues; thanked the band for their sweet music, and for the compliment paid us, bowed and bid them good night.

Success to Greensboro' and her intelligent, industrious people.

GRAPES AND WINES.

The grape crop in North Carolina the present season, we understand, is a pretty full one. The cultivation of the several varieties of the table grape will not likely prove as profitable as many were led to expect. They are so easily produced and in such quantities that the markets became easily glutted. Unless, therefore, the grape in this State can be successfully cultivated for the production of wine, it is not likely to be as profitable as has been generally supposed. But of the adaptation of our soil and climate to the manufacture of good wines, we entertain no doubt. It has been tested sufficiently in several portions of the State to establish the fact, and yet there are many incredulous upon the subject.

The lovers of foreign wines, are very hard to convince that a first rate wine can be produced from the Scuppernong grape and other varieties. We observe that the *Hearth and Home* and other Northern journals are wholly incredulous as to the capacity of the Scuppernong to produce a good wine that will keep without the use of sugar or alcohol. Several of our visitors have demonstrated this for years in this State, and we presume there can be no doubt of it.

As yet the business of wine making is in its infancy, and our people have been slow to adopt new methods in its manufacture, because they have succeeded pretty well with the old ones. We are satisfied, however, that a proper trial, by manufacturers of experience and skill, that no grape can produce a better wine than the Scuppernong. The quantity which has heretofore been made in the State and the general necessity for selling our products as soon as they are marketable, have prevented our people from keeping their wines long enough to determine fully what can be made of the Scuppernong grape. The writer of this remembers well years ago, of seeing a small quantity of wine, made from the Scuppernong grape, without sugar or spirituous liquors, which had been kept until it was twenty-one years of age, presented to a number of good judges to test. Not one of them could tell what kind of wine it was, but every one declared that it was equal to the best wines they had ever tasted, and were surprised when told it was the pure juice of the Scuppernong grape which had attained its majority.

DRIED FRUIT.—The fruit crop in this State has been a very fine one and will prove vastly profitable. Besides the handsome amount of fruits which have been sold green, perhaps a larger amount of dried fruit has been prepared the present year than any preceding one. A gentleman informed us some days ago that he thought the dried apple crop in Orange the present year would amount to nearly $100,000. This is doing well. Other counties will do much more. Forsyth will exceed that largely in dried black berries.

For the Sentinel.

UNITED STATES SENATOR.

MR. EDITOR: My article, which appeared in the SENTINEL of the 14th instant, has been rather severely criticised by a writer signing himself "Citizen of Catawba," and denominated "*The out cropping of a diseased brain*," &c., &c.

While I am not at all exercised on this account, yet as the question of a *United States Senator* is one of public concern, I indulge the hope that you will allow me space in your paper for the insertion of a short reply to "Catawba," in which reply it is not my purpose to urge the claims of any particular individual, but to elucidate as far as may be, the principle that should govern our Legislators in the selection of a suitable man to represent us in the United States Senate. Trusting you will grant the favor I ask, I shall proceed to consider the question at issue.

The question as I understand it is, shall the most suitable man be selected and elected by the Legislature of North Carolina *without regard to his political disabilities;* or shall one even though he be less worthy, be selected from that number whose disabilities have been removed by Congress; or from that number who have never been *banned*.

I assume that no regard should be had to to the particular status of either of these three classes, but that a man should be selected, without reference to either, who can *best represent North Carolina*,—not for "the glory of the thing," as *insisted* by "Catawba," but with the sole aim to subserve the best interest of the State.—From this assumption it does not necessarily follow that the Legislature must select a man who is disable under the 14th amendment, and if "Catawba" had been as clear in his perception as a critic ought to be, he would not have failed to comprehend my true position. Hence the deduction he makes, which astonishes more for its *boldness* than its *logic*, must be received with many grains of allowance. He makes his deduction from false premises, as must appear from the mere statement of the question. I have never said it is the imperative duty of the Legislature to elect a man whose disabilities have not been removed. I simply say, as I have said before, that there should be no *class distinctions, every* thing else being equal, and "Catawba" does injustice to me, not to say to his own good sense, when he assumes, that I have said more.

In contravention of my position "Catawba" argues that it would be "suicidal" to elect a man whose disabilities have not been removed. To what policy I would ask, in all sincerity, would it be suicidal? If to the "Radical" policy, then I say, let our Legislature commit suicide. But if he meant to say, as I presume he does, that it would be suicidal to the Conservative policy to elect a man who is *now banned*, then I would ask, *wherefore?* Would it be suicidal for the Legislature of North Carolina to send our very best man—the man of our choice—to the United States Senate, and let him ask Congress to remove his disabilities, even though he should fail to get them removed? I believe all this might occur, and yet "the heavens would not fall," nor would North Carolina be ruined, or even hurt. I cannot realize that it would be suicidal, or in the least injurious, to claim one of the natural fruits of our late victory. "Catawba" you have certainly "overshot the mark" this time. You are unnecessarily frightened. Your fertile imagination pictures a mountain where there is only a mole hill. I tell you that all this dreadful apprehension, that North Carolina is going to commit *suicide* is a mere delusion, calculated to alarm only the timid, and I imagine some body has put this idea into your head simply for amusement.

But "Catawba," laboring under this same "*suicidal*," idea, says "the minority candidate will be declared elected," should the Conservatives elect a man whose disabilities have not been removed, and he cites the Louisiana case as authority to support his opinion. *Strange!* wonderfully strange indeed!! Now this idea is simply ridiculous. Does not "Catawba" know that in the Louisiana case, there had only been an election by the popular vote, and not as provided by the constitution for the election of a United States Senator? The case he refers to therefore, as authority is simply no authority at all. The fact is this, if the Legislature of North Carolina should elect a man who can not obtain his seat the election amounts to nothing, but another election can take place very soon. The constitution expressly states what is necessary to constitute an election in such case, and if a "minority" candidate were to be "declared elected," it would be in flagrant violation of express constitutional provisions, and certainly there is too much wisdom and common sense among the Republicans of Congress, who represent the "National Republican party" to commit a mistake at once so fatal to the interest of that party. Hence it is clear, that if a man should be elected who is under the ban, nothing deliterious could attend it, even allowing, which I do not allow, that Congress will not remove his disabilities.

But I take it, that Congress will remove his disabilities, and as authority for this opinion I refer especially to "Citizen of Catawba." He has laid down correct premises, from which I draw the conclusion, that the Republicans of Congress can subserve no party end, neither as a matter of principle, nor as a matter of policy, by refusing to remove the disabilities of such gentlemen as the Legislature may elect, allowing that he is now *banned*. It is fair to suppose that Republicans always act, either from principle or policy, and if we can present a case where the ends of *neither* can be subserved, then we make it a matter of individual preference, and, in this case before us, Congress can have no such preference.

But what are the premises laid down by my "Catawba" friend? He says *substantially*, in his criticism on my article, that there are quite a number of distinguished gentlemen, (mentioning the names of several) who are not banned, either one of whom could represent North Carolina as ably, honorably and effectually as any who are banned. He farther says inferentially that these gentlemen who are not banned, belong to the very same party, and hold precisely the very same views touching all political questions, held by those who are now declared disabled. Well! I allow that this view of the case is a correct one, and that Congress will not fail to comprehend it in all its force, at a glance. Then it follows as a matter of course, that the Republicans of Congress can have no possible pretext for refusing to admit to his seat the man of our choice, though that man may now be under the ban. They will not fail to realize fully, that, in any possible contingency North Carolina must be ably, honorably and effectually represented by a Conservative Senator and to refuse him his seat because of his disability, which they can readily remove, would simply be jumping out of the frying pan into the fire," it appearing that in any event that seat must be occupied by a Conservative, and it also appearing that to make any discrimination on account of political disability could subserve no political purpose, but could only operate to injure the Republican party as a national party. The Conservative triumph at the late election in North Carolina, fixed the political status of the State on the Conservative side, but it was to prevent this occurrence, that the Radicals disabled so many of our best men, but since they have been gloriously defeated in their object, it follows necessarily that class distinctions will now be done away, and that North Carolina will soon again be free to make choice of her own representatives as under the old regime.

If, therefore, "Catawba" is correct in his premises, of which I have no doubt, that is, that if North Carolina must in *any event be ably, honorably and effectually* represented in the United States Senate, by a *Conservative*, then I feel abundantly justified in the opinion that, if the Legislature should select a Senator who is now *banned*, Congress will not hesitate to remove his disability.—In closing this view of the case I must say, I feel greatly obliged to my friend, "Catawba" for the splendid argument he has given me in favor of my view of the question at issue; and although he may say he gave it to me *unconsciously, still* I am obliged.

I believe I have now noticed all the points made by my "Catawba" friend in his *criticism* upon my article, but whether I have answered them successfully or not, is a question which the reader must determine.

But I cannot well take leave of my good "Catawba" friend without assuring him that it has not been my purpose to treat his communication as "the result of some morbid delusion,"—the out cropping of the 'diseased brain" or a "deluded man or a political monomaniem" but rather as the result of a startled exhibition, or partial outburst of kind feeling, tenaciously adhered to as principle, but still only *feeling*, having for its object some *favorite* who expects, if the chances of all for Senatorial honors are to be regarded as equal, that his most formidable opponent will be found in the *banned* class; and it may be that the special *favorite* is the *writer* who signs himself "Citizen of Catawba." The "ear marks" of the productions, pretty clearly indicate the author. Be careful "Catawba," the "cat will out" if you don't watch.

Respectfully, &c.

CITIZEN OF YANCEY.

For the Sentinel.

MR. EDITOR:—I regret to see anything like sharpness arising between your correspondents on the subject of the Senatorship. Nothing but harmony and good feeling should prevail. It is with the hope of pouring oil on the troubled waters that I write this.

I agree with you fully in your remarks in yesterday's paper, on this subject, that gentlemen should confine themselves to the mention of their favorites without drawing invidious distinctions, and that the whole matter should be left to the unbiased judgment of the Legislature. But with all due respect, I think the turn which the controversy has taken was provoked, not intentionally, of course, by the effort to push forward certain gentlemen for that position, on the ground that their disabilities had been removed, and to forestal the action of the Legislature by establishing the principle that the selection must be limited exclusively to such. This is unfair and unjust, and naturally excites the indignation of the friends of those gentlemen who have not had "friends at Court" to secure the removal of their disabilities. It is well known, Mr. Editor, that the most zealous, bold and hard-working men in the Conservative ranks, and who have contributed most to the success of the party, are the men who, for that very reason, have failed to secure Congressional favor. Their labors made them obnoxious, and yet our victory is due to such as Turner, Vance and others.

And now that we are, as we trust, on the eve of better times, and a change in the policy of Congress, and most likely a change in one branch of the Congress itself, is it fair or politic even, to say to these men, "you have fought too hard, the Radicals hate you too much for the blows you have dealt them, the policy of the Legislature is fixed that your claims are not to be considered even. We shall bestow the honors of victory on men who prudently kept out of the reach of shot and shell; men whom the enemy like better than you; and men who were laboring to secure the removal of their disabilities whilst you were laboring to secure the removal of tyranny, misrule and ruin from the necks of the people?" It seems that there is such a thing as serving one's country too faithfully to secure its honors and rewards!

This doubtless is the proper policy to conciliate a Radical Congress; it certainly is not the policy to maintain the integrity and efficiency of a party. I am quite sure if it prevails, that there are men who will test the merits of quiet and providence in the battles which are to come. Let us know, Mr. Editor, if that policy is to prevail at Raleigh this winter.

Now all that the friends of Graham, Bragg Turner and others in like situation, ask is, that this matter of disabilities shall not be settled against them in advance as to the evident tendency of many of your communications, but that their claims should be considered on their merits, and they should have a chance to try for a seat in Congress as was given to Mr. Shober, Mr. Rogers and others. In short just leave that matter to the wisdom of the Legislature when it meets, without trying to prejudge its action to the exclusion of a large and worthy class of Conservatives.

The supposition that Congress will seat a minority candidate for the Senate because of the ineligibility of the Senator elect is founded in ignorance of Congressional action. Unless I am much mistaken Congress has never yet seated a minority candidate except when the election was contested for illegality. How such a contest can grow out of our Senatorial election I am unable to conjecture; but one could be as easily trumped up against a non-disability man, as any other. Such in fact, was the case in the Louisiana contest referred to by one of your correspondents.

If this fore-bearing spirit prevails there will be peace and harmony in the Conservative ranks no matter who is made Senator. But if it is expected to drive all of the gentlemen who are under disabilities enmasse out of the field by pressing this matter, we very much fear the result may be unprofitable.

These are the sentiments of many in this region who care less for the conciliation of Radicalism than the building up and preservation of

CONSERVATISM.

STEAM ON COMMON ROADS.—The practicability of using steam on common roads appears at last to have been thoroughly tested in Scotland, where the success of Mr. R. W. Thompson's road steamers, after various trials, has earned for them the endorsement of the most skeptical. A six-horse road steamer has been running for several months from Aberdeen, a distance of four miles, over a wretched road, to the Kittock Flour Mills. In many parts of the road the grade is one in eight, over which the steam engine draws ten tons with great ease at the rate of three miles and a half an hour. When we have canals navigated by steamboats, and locomotives run on common roads, "trade and travel" will increase "beyond expression."—*Baltimore Sun.*

THE MOST VIGOROUS AND PROGRESSIVE COMPANY IN THE WORLD.

The Equitable

LIFE ASSURANCE SOCIETY OF THE

UNITED STATES

120 BROADWAY, NEW YORK.

BURROUGHS & SPRINGS, GENERAL AGENTS,

CHARLOTTE, N. C.

TWENTY-ONE REASONS FOR PREFERRING THIS COMPANY TO ALL OTHERS.

1. Its cash assets are upwards of $13,000,000.00 and constantly increasing.
2. None of this is made up of promissory notes as in many Companies.
3. Its cash income per annum is over $6,500,000.00 and steadily growing larger.
4. None of this is composed of the notes-of-hand of policy-holders, as the case in many companies.
5. It has paid to widows and orphans, and other claimants under policies on deceased members, about $4,000,000.
6. Such payments are made in cash, and not partly in cancelled notes, as is the case in many companies.
7. No deductions are made from the face of a policy for premium notes when it becomes a claim, as is the case in all Note Companies.
8. The sum of $3,500,000, and upwards, in cash divided among policy-holders, (this included the dividend for the present year), as profits of the business.
9. All the profits of the business are annually divided among the assured Equitably, instead of being wholly or partially distributed among the stockholders, as is the case in all "Mixed" and "Proprietary" Companies.
10. Dividends are invariably available as cash in payment of premiums.
11. The dividends are made from the start, and not postponed until after the lapse of several years, as in many Companies.
12. The Society deals Equitably with its policy-holders.
13. The Equitable has made more progress since its organization than any other Life Company in the world.
14. Its risks have been so carefully selected and its dealing so equitable, that it has never been obliged to contest the payment of a claim at law.
15. Its modes of applying dividends are more numerous and more advantageous than those of any other company in the world.
16. It issues all the popular styles of policy, including "Ten Year Non-Forfeiting" and "Endowment policies."
17. The amount of new business during the year ending "December, 1 1869, was $51,021,161.28.
18. Its policies average larger in amount than those of any other company, showing that capitalists select the Equitable for purposes of investment.
19. The profits of the business are apportioned to the assured on the "Contribution Plan" which is conceded to be the only equitable mode of division, and not by the mode adopted by many companies, which is grossly unjust to a large proportion of the policy-holders.
20. It is as liberal in the conduct of its business as is consistent with safety to the assured, and does not sacrifice proper caution to an ambition to increase the nominal amount of its business as is the case with many new companies.
21. It is the favorite company in the United States, as is shown by its new business for last year, being nearly $13,000,000 greater than any other company.

MAYOR'S COURT, Sept. 21st.—Louis Mosier, W. H. Gorman, Maurice Nevilles, Chas. McComb and Edward Dillhan, United States soldiers, belonging to the different companies now in camp in this city, charged with being drunk and disorderly in the streets were fined $2 each and allowed to return to their commands after receiving a warning to conduct themselves better in the future.

NEW MILLINERY EVERY DAY.—We were, yesterday, admiring some of the new millinery goods displayed in the show room of Mrs. Beasley, on Fayetteville street, and were informed by her that she is now receiving new millinery—hats, bonnets (new style,) flowers, &c. &c., every day. It is a pleasure to step in and look at the pretty little pieces of head gear there, which will make female faces that are put under them look so sweet and kiss inspiring.

TAKEN UP.—Two horses belonging to Sheriff Lee, were captured on Tuesday night by the police, running at large in the streets and lodged in the Livery Stable. It is supposed that the Sheriff's stable was broken into by some one intending to steal the horses, but who were for some reason frustrated in their designs.

A NICE TOILET SOAP.—We are indebted to Mrs. E. R. McGowan, for a sample of toilet soap made by herself, from the mineral deposit of Kittrell's Springs. This soap has been in use a number of years and has been found very efficacious in eruptions of the skin and similar diseases, such as tetter, ring-worms, &c., and has been used with great benefit in scrofulous affections.

LOVE AND RADISHES.—A lady of taste has sent the editor of the Mount Airy *News* a beautiful boquet, and a friend of the opposite sex has presented him with a six pound radish. We don't know the editor's *status* matrimonial, but he talks like he was more highly elated with the boquet than the radish.

LEG BROKEN.—We learn that on Tuesday morning last, John Ray, a young man about 17 years of age, an employee at the office of the *Biblical Recorder* in this City, while attending to his duties around the press, had his leg broken. By what means the accident happened, we are not informed.

ADAM SELLE.—The California papers tell of a man of this name found frozen to death, and when taken up he cracked like an icicle; his body snapped in two in the middle and one of his arms broke short off at the shoulder. We are not sure but his name has some intimate connection with the story.

LABOR GOING SOUTH.—We understand that some sixty colored laborers left this city, on Tuesday night, for some point in Mississippi, under an engagement to labor on cotton farms.

WANT TO KNOW!—It is known that Littlefield, the swindler, went to Europe, and that "Old Nick," (N. W. Woodfin, Esq.,) went after him to try" to make him disgorge some of the Western North Carolina Railroad funds that he and the "Ring" stole from the State. The latest rumor we have of the pursuer and the pursued is, that Littlefield has had Woodfin arrested "as a Franco Algerine spy!"

WIFE BEATING.—Augustus Wiley, col., was reported yesterday morning to His Honor, by William Blackwell, for beating his wife. A messenger was dispatched to Augustus, inviting him to visit His Honor and tell the reason for resorting to such harsh means to enforce his conjugal authority. The upshot of the matter, up to this writing, we have not learned.

We are glad to see that the elegant private residence, now being erected by Col. Heck in the northern portion of the city, is being pushed rapidly forward to completion. When finished this building will be a decided ornament to its neighborhood and a monument to the correct taste of its owner.

ANOTHER SPECIAL PREMIUM.—In addition to the special premiums heretofore noticed, we see that the Ridgeway Nurseries offer $10 for the best selection of Fruit Trees, Grape, Raspberry and Strawberry Vines, grown in the State, that may be exhibited at the State Fair, commencing in this City on the 18th October ensuing.

The officers of the State Agricultural Society are greatly encouraged by the daily evidence of the increasing interest thoughout the State, in the success of the next exhibition, and are laboring assiduously to have all the necessary arrangements complete to meet the public expectations.

BEWARE OF TOOTH POWDER.—Vended under the name of Dentrifices. Adopt and adhere to the only preparation that really preserves the teeth and hardens the gums, fragrant SOZODONT. Its effects on decaying teeth are marvellous.

THE WHEAT CROP.

We have already called the attention of our farmers to the importance of the next wheat crop. The continuance of the Prussian-French war and the agitation which pervades the continent of Europe, is unfavorable to the seeding of a large European crop. Breadstuffs will be very likely to command a good price for the next year.—Wheat should, therefore, be sown very generally in those sections where the lands are adapted to its production.

In the present scarcity and high price of labor, wheat is an important crop both as a labor-saving crop and as the most favorable one for the improvement of our lands.

The crop should be sown early, using the best varieties and the best seed. But greater care should be taken in the previous preparation of the soil, both as to thorough tillage and fertilizing. Lime, the phosphates and plaster are the cheapest and the best fertilizers for wheat. These should be judiciously purchased, and used to the best advantage. We believe our farmers who have tried it, generally prefer the shell-lime for wheat. It may be obtained in large quantities in Norfolk, Va., at reasonable prices. Let the soil be thoroughly broken up and prepared before sowing.—Experience has shown that most of farmers more frequently err in sowing too small a quantity to the acre than too much.

SECOND ON THE LIST.—Sheriff White, of Mecklenburg county, was in the city yesterday and settled up with the Treasurer for the State taxes from his county. He is the second to make full settlement. The following are the amounts of the general and special taxes of Mecklenburg:

Public tax	$9,861 76	
Insurance tax	661 77	$10,423.53
Special for Penitentiary	83 121 11	
" " School	3,121 11	
" " M. & A. Turnpike	187 27	6,429.49
Tax on Polls	$2,4.9 63	
" " Retailers	488 98	
" " Auctioneers	19 83	2 929.54
Total		$19,882 56

BOUND FOR THE PEN.—At the late term of Surry Superior Court, Jerry Shropshire was convicted of larceny and sentenced to two years in the Penitentiary, and James Thompson, for the same offence, to four years.

IMPORTANT NEWSPAPER CHANGE.—The *Hearth and Home*, a finely illustrated family journal of a high character, hitherto issued by Messrs. PETTENGILL, BATES & Co., has been purchased by Messrs. ORANGE JUDD & Co., of 245 Broadway, New York, the well known publishers of the *American Agriculturist*. Messrs. S. M. PETTENGILL & Co., whose great Avertising Agency, established in 1849, is one of the largest and most reputable in the world, find that their extensive business requires their exclusive attention, and they therefore transfer *Hearth and Home* to the new Publishers, whose long experience and abundant facilities will enable them not only to maintain the past high character of the paper, but to add materially to its value. The new Publishers also announce a reduction of the terms to $3 per year. The change will not at all affect the *American Agriculturist*, which will continue on independently as heretofore. The illustrations and reading matter of the two journals will be entirely different. Either of the journals will be furnished from now to the end of 1871 (15 months,) at the yearly subscription rate, viz: the Weekly *Hearth and Home*, at $3; the Monthly *American Agriculturist*, $1.50; or the two for $4.

An engine and train passed over the new bridge across the Pee Dee, on the Wilmington, Charlotte and Rutherford Railroad, last Saturday, and took in freight on the Anson side of the river.

Two hundred white families are about to be turned adrift from their homes in Horry county, South Carolina, for inability to pay their taxes. This is one of the beneficent results of glorious radical rule in that State.

CALIFORNIA MANUFACTURES.—The returns for the current year foot up $75,000,000 of annual product against $59,500,000 ten years ago. There are 5,700 men employed in the large establishments of San Francisco alone, where they earn $5,985,000 annually and add $10,000,000 to the material. The foundry work earns $30,000,000, tool works, $5,000,000, sugar refineries $1,000,000, woolen mills $3,000,000, furniture $5,000,000, grist mills $2,000,000, railroads and bridges $5,000,000, saw mills the same, and other industries the residue.

The Lustral Preparations is a fluid without sediment and without bad smell, that renews the youthful honors of the head, however time may have blanched them, repeating the hue of nature to a shade. This marvel of science is PHALON'S VITALIA or SALVATION FOR THE HAIR. It stands alone.

Sold by all druggists and fancy goods dealers. sept 19-tf

Half Alive.

It is a sad thing to pass through life only half alive. Yet there are thousands whose habitual condition is one of langnor and debility. They complain of no specific disease; they suffer no positive pain, but they have no relish for anything which affords mental or sensuous pleasure to their more robust and energetic fellow beings.

In nine cases out of ten this state of lassitude and torpor arises from a morbid stomach. Indigestion destroys the energy of both mind and body. When the waste of nature is not supplied by a due and regular assimilation of the food, every organ is starved, every function interrupted.

Now, what does common sense suggest under these circumstances of depression? *The system needs rousing and strengthening*; not merely for an hour or two, as such afterward into a more pitiable condition than ever, (as it assuredly would do if an ordinary alcoholic stimulant were resorted to,) but radically and permanently.

How is this desirable object to be accomplished? The answer to this question, founded on the unvarying experience of a quarter of a century, is easily give. Infuse new vigor into the digestive organs by a course of Hostetter's Stomach Bitters. Do not waste time in administering temporary remedies, but *make the system* up by recuperating the fountain-head of physical strength and energy, the great organ upon which all the other organs depend for their nurture and support.

By the time that a dozen doses of the great vegetable tonic and invigorant have been taken, the feeble frame of the dyspeptic will begin to feel its bodily influence. Appetite will be restored, and with appetite the capacity to digest what it craves. Persevere until the cure is complete—until healthful blood, fit to be the material of flesh and muscle, bone and nerve, and brain, flows through the channels of circulation, instead of the watery nauseous with which they have heretofore been imperfect ly nourished. sept 21-conlw.

TELEGRAPHIC.

Wednesday Evening Dispatches.

NEW YORK.

NEW YORK, Sept. 21.—The "Merimack" from Rio De Janeiro, brings details of a collision off the entrance of Paris, on the 7th inst., on the Amazon river, in which two vessels, one hundred and twenty-one lives were lost. Both pilots are reported as being drunk.

CALIFORNIA.

SAN FRANCISCO, Sept. 21.—Later advices from Arizona, place the capital of the Territory on a state of siege. A dozen citizens have been killed. A number of Mexican teamsters and mail riders were massacred. Mail stations and wagon trains have been destroyed. Farmers are abandoning their ranches. The Indians are shockingly treacherous.

FOREIGN.

LONDON, Sept. 21.—A letter from Bismarck, dated Sept. 11th says: "The next phase of the war will be the investment and, in time it is hoped, the occupation of Paris, then peace. Those in power will certainly not desire a further slaughter, and the public opinion must soon be so much against the war that the days of Napoleon will not again be disturbed." Bismarck characterizes the statements of newspapers as mainly romances. When gentlemen of the press approach him he gives them civil answers and their imaginations does the rest.

The city of Toronto is covered with flags over the expected news of the occupation of Rome.

The French are marvellously active around Paris, throwing up earth works.

Russia is moving large bodies of troops into Poland.

Paris papers represent the joint income of the Empress and Emperor at two hundred million of francs.

The *Times* says that Prussia can afford to be generous.

TOURS, Sept. 21.—The repulse of the Prussians at Orleans is confirmed.

Iron clods for the defense of Paris have commenced operations. Genl. Ripley, an American, is now in Paris and has tendered his services to the Committee of Defence. Floating Batteries have been constructed to defend the entrances to French rivers. A large force of troops and volunteers are reported at Lille. It is expected that these and the troops now in the Eastern Department, will soon create a diversion.

It is rumored that the armament were visited by the Foreign Ambassadors, but were refused admittance. The *Gazette de Lyon* says that Rome is perfectly calm, which is glad and now goes for Victor Emanuel to secure Austrian co operation.

FLORENCE, Sept. 21.—The city of Rome is occupied by the Italian troops. The fact of there being no bloodshed is attributed to the tenderness of the Pope. He forbade any re-istance. The 12 pieces of cannon the Italians with great enthusiasm.

LONDON, Sept 20.—A sharp battle took place between Villeneuve and Montrange, near Paris. The French forces consisted of three Divisions, commanded by Gen. Vinoy, supported by a strong reserve. The French were however defeated.

COTTON SEED MANURE.

DALLAS COUNTY, Aug. 30, 1870.

DEAR ARGUS:—As a great deal has been said about cotton seed as a manure, and as the season for preparing it will soon be at hand, I propose to give you the plan by which experience has taught me, I can make twice the quantity of manure every ton of which is equal in strength to two tons of it the usual rotted in the usual way.

It is the usual custom of planters to throw the seed out of the gin house window, where they remain in a large pile until used for manure the next spring. By that time you will find every seed as hard as flint, containing a shrivelled kernel, hard and dry, without taste or smell. The consequence is, that that pile of seed, until you get down almost to the surface of the ground, is worth, for manure, but little more than so much rotten wood. Every planter knows that the top of the earth under a cotton seed pile is better manure than the cotton seed; and it is the only thing I have ever seen which I considered equal to well rotten stable manure.

Some planters keep their seed sound, and contend that it is more valuable, as they contain all of those gasses, some of which necessarily escape during the process of decomposition. This is true to some extent, but ask any one who has tried it and he will tell you that the first drouth of any duration will ruin the cotton—burn it up. Even if the summer is seasonable all through (which is never the case,) the cotton will make weed enough, but very little fruit.

My own plan is as follows:—As soon as the crop is "laid by," take all hands to the gin house, scrape up all the grass, weeds, etc., around it, and in the screw yard, and pile them under the window from which the seed are to be thrown. Also scrape up all the rich dirt, of which there is always more or less about the gin house. Bring all the wheat and oat straw you have to spare. When you have got enough to make a heap about two feet deep and wide enough for the base of the cotton seed pile, build around it a rail pen. When you have thrown on this a layer of cotton seed about two feet thick, put on another layer of weeds, surface earth, swamp muck, etc., then another layer of cotton seed and so on through. This manure can be improved almost fifty per cent. by a liberal supply of wood ashes or a few bushels of land plaster spread over each layer of cotton seed. All this work can be done on rainy days, when it is too wet to pick cotton. The fermentation destroys the vitality of the grass seed.

With the seed from a hundred bales of cotton, prepared in this way, you can manure two hundred acres of land more thoroughly than by applying the "Dixon," "Langdon," "Gillam," or any other commercial manure, at the rate of four hundred pounds per acre. This manure will last for several years, and not, like the others just mentioned, give out before the first crop is half done growing. Yours truly,

RECLAIMER.

Dallas County, Ala., Sept. 1870.

PLANTING STRAWBERRIES IN THE FALL.

Many persons believe that spring is the best time to plant strawberries; but the *Ohio Farmer* seems to be of different opinion, and gives the following directions for fall planting:

"When plants are well set in the fall, they will fruit the next season, as it is the fall growth of root which supports the plant for the next year's fruiting. Go into your garden to-day, and pull up a strawberry plant which has fruited this season, and you will see the old stock of roots dead and black, and from the crown of the root beneath a set of new roots putting out; these must make a good fall growth or you will get no considerable crop of fruit next year; and transplanting now causes a less jar in the natural condition of the plant than if taken up at any other period of the year.

"Choose for planting young runners that are well rooted; then on a cloudy day proceed with your work. Draw a line where you desire to plant and mark a place for the row; spread out the the roots evenly on all sides; set in so as to bring the dirt well up to the crown of the plant, without covering it, and press the soil down firmly with your hands around the plant. If the weather should prove dry, water thoroughly, so as to soak the roots, as often as the foliage shows by its drooping appearance that water is necessary.

"Before the setting in of winter, cover the entire surface of the ground, over the plants and all, with a litter of straw or other like material, to keep the plants from the changes of freezing and thawing, to which they would be exposed if left on the surface where the sun and winds would have full play upon them. This covering should be removed in the spring, so as to let the plants grow up without hindrance. The fruit buds are formed in the fall, and if these are injured during the exigencies of winter and early spring the crop of fruit will be lost.

"Strawberries, like grapes, need a generous, strong soil, but not decidedly fat, and especially not recently staunched with green or raw manure. If manure is needed, let it be fine, old, well rotted compost, and let it be thoroughly mixed with the soil, which soil is best to be a deep loam, though some varieties, as the early scarlet, will flourish in sandy soils. A moist soil is always best for strawberries."—*Farm and Stock Journal.*

NON-EXPLOSIVE COMBINATION BURNING FLUID

THE CHEAPEST, BEST AND SAFEST ILLUMINATING AGENT IN THE WORLD!!

No more Exploded Cans!—No more Exploded Lamps!

No more Smoke!—No more Grease!

No more Fires!!

EVERYBODY PREFERS IT AFTER GIVING IT A TRIAL!

IT costs less!—It lasts longer!—Gives a more Brilliant Light!—May be burned in hand lamps, without chimney.

Guaranteed to make a better and safer Light than Coal Oil and to be NON-EXPLOSIVE!!!

No accidents have ever happened with it.

Protected by Copy right for 28 years from May 9th 1869.

The above Fluid has been in constant use for upwards of three years, and has sustained its unrivalled reputation, as a brilliant, non-explosive illuminating agent, though subjected to the severest tests. Being universally conceded to be superior to Kerosene or Coal Oil. It makes a better light and more of it, than any other illuminating compound. Soft, clear, steady and uninjurious to the eyes. All that is asked is, a fair and impartial trial.

Among the numerous testimonials received read the following:

PHILADELPHIA, March 15th, 1869.

The undersigned, having witnessed the experiments of Messrs. Hale & Co., with their Combination Burning Fluid, take pleasure in commending it to the public. The various tests to which the Fluid was subjected, was in the highest degree satisfactory. We have no hesitation in pronouncing it to be a *safe and brilliant* illuminating agent. Its cheapness added to its other good qualities, should insure its introduction into *every* family in the country, where Kerosene Oil is used.

NOTICE!!!

On 7th or 8th inst. two horses were taken from this farm, and supposed to have been taken to some of the lower counties, or somewhere near Raleigh. One an old sorrel of medium hight and size, badly rubbed, with a swollen left hind foot, stiff movement and shod only in front. The other a young dark iron gray, sore back white spot in forehead, small and quite thin.

A reward of Twenty-five dollars will be given by the undersigned, for the return of the above described Horses, and Twenty-five additional for the apprehension of the thief.

A NEW DISCOVERY!!

PHALON'S

"VITALIA;"

OR,

Salvation for the Hair.

CLEAR AS WATER!

WITHOUT SEDIMENT!!

OPEN TO THE LIGHT!!!

For Restoring to Gray Hair its Original Color.

PHALON'S "VITALIA" differs utterly from all the hair coloring preparations heretofore used. It is limpid, sweet smelling, precipitates no muddy or slimy matter, requires no shaking, imparts no stain to the skin. Hold it to the light and it is clear and cloudless. It leaves no mark on the scalp; yet it reproduces in gray hair the natural color that time or sickness may have bleached out of it.

☞ Phalon's Vitalia ☜

is for one sole purpose, that of reproducing, with absolute certainty, the natural color of the hair. It is not intended as a daily dressing, nor for removing scurf or dandruff; nor for curing baldness; nor for stimulating the growth of the hair.—These objects may be accomplished after the color has been fixed with the Vitalia, by Phalon's Chemical Hair Invigorator.

THE VITALIA is a harmless and unequaled preparation for the reproduction of the original hue of gray hair, and nothing else. This is accomplished in from two to ten applications, according to the depth of shade required. Sold by all druggists.

SUCCEEDS HIS FATHER IN THE AGENCY OF THE

NATIONAL LIFE INSURANCE CO., U. S. A.

For the Central and Northern Counties in

NORTH CAROLINA.

The NATIONAL, under the management of his father, P. F. Pescud, Sr., secured very many warm friends who obtained policies for large amounts, and the fact that it has issued upwards of

10,000 POLICIES,

and nearly doubled its immense Capital of $11,000,000

in about two years, speaks more for its wonderful popularity than any language at my command. The rates being based on the Stock Plan, and when contrasted with Mutual Cash rates, are so much lower, that a certain and handsome dividend is secured from the date of the Policy.

I will be gratified to take applications from my friends and all wanting Policies, and shall want many active and reliable Agents, in the fields assigned me.

FOR THE IMPROVED

"UTLEY COTTON PRESS."

THE "UTLEY PRESS" So well known, and which gave entire satisfaction last season, can be obtained of me at Raleigh, or my Agents, Messrs. Mitchell, Allen & Co., Newbern, with its improvements.

Price $175.00.

This invention of power, whereby all friction is overcome, its simplicity, economy and durability, astonishes all who see it; and the more so, that a power so simple should have remained so long unappropriated. The strain is wholly borne by the Bed Plate, Follower Block, and two 1¼ inch square iron bars, which is capable of sustaining a strain of 190,000 lbs. Thus giving much more strength than is required. WITH THIS PRESS TWO MEN CAN PACK A BALE OF COTTON WITH EASE IN EIGHT MINUTES WEIGHING FROM 400 to 550 lbs.

One man can do the work, only requiring longer time.

It occupies a very small space, and can be so placed as to receive the lint direct from the Gin or Lint Room, as may be desired. Thus doing away with baskets, and frequent handling of the lint.

It is light in weight, can be taken down or put up in 30 minutes and transported on a two Horse Wagon.

I believe it unequalled by any Press for power, convenience and durability.

Press complete—Depth Cotton Box 8 feet · Size Bale 4½ feet x36x28x30in; wt. Bale 400 to 550 lbs.

T. H. BRIGGS, Esq.: Dear Sir:—I used the "Utley Cotton Press," I purchased from you last season, and consider it to be the best Press I ever saw. Having packed bales to weigh from five hundred and ninety (590) to six hundred and twelve pounds (612); I consider it the best and most durable Press I ever saw used, and can cheerfully recommend its use to the farmers of North Carolina.

Yours truly, C. W. BYNUM.

MR. THOMAS H. BRIGGS: Dear Sir:—Yours of 13th instant inquiring as to the merits of the "Utley Cotton Press" is to hand, and in reply I would say that I have tried other Presses and consider the *gain upon which the Utley Press works* cheaper, simpler and more durable than any I have met with.

Yours very respectfully,

JAS. R. WILDER.

HILLSBORO', N. C., April 22nd, 1870.

THOS. H BRIGGS, Esq., Raleigh, N. C.: Sir—I have used "Utley's Cotton Press" for baling hay for some months. It works well and gives entire satisfaction. I regard it as the best Hay Press I have seen.

Respectfully, E. H. POGUE.

RALEIGH, N. C., June 18th, 1870.

T. H BRIGGS, Esq., Raleigh, N. C.: Dear Sir:—I used the "Utley Cotton Press" I purchased from you last season. I packed my own crop of cotton, also other crops for my neighbors, making in all one hundred bales. I consider it superior in all respects to any Press I have ever seen and that it is every thing the patentee represents. I packed bales weighing from four hundred to five hundred and ninety-seven pounds.

Yours truly, W. T. BOWLE.

POLICIES VALUABLE IN LIFE, AS WELL AS AT DEATH!!!

THE BROOKLYN LIFE, IS THE ONLY COMPANY IN AMERICA, WHICH GUARANTEES

DEFINITE CASH SURRENDER VALUES,

IN CASE A POLICY IS FORFEITED FOR NON-PAYMENT OF PREMIUM.

The BROOKLYN LIFE enjoys the highest reputation *for judgment of investment, economy of management, and skill and care in the selection of risks*,—upon which elements of administration the security of a Life Insurance Corporation depends.

The laws of New York compel Companies in that State to calculate the Cash value of their Policies, each and *every year, and a certain legal standard of reserve* and accumulation must be *held by the Companies to meet all their liabilities.*

Insurers, in looking around for Companies in which to insure, should carefully seek for this important safeguard. It will be found in the BROOKLYN LIFE.

CASH ASSETS - - - - - - - - $500,000.

YOUNG, HEALTHY, VIGOROUS AND CONDUCTED BY A WISE, PRUDENT, AND ECONOMICAL BOARD OF DIRECTORS UPON A

NEW SYSTEM,

devised by its talented and distinguished Actuary CHAS. N. MORGAN, which must make it the leading Company in America, for persons in

MODERATE CIRCUMSTANCES,

and all who appreciate and demand the most UNQUESTIONABLE SECURITY, at rates in most cases, *considerably lower* than those of the leading Mutual Cash Companies.

The Excelsior issues Policies on *all* the plans of *Mutual* or Stock Companies, extending to policy holders, all their really desirable advantages. Its policies being *non-forfeiting*, the insured as privileged to *live and travel where they please* in any healthy parts of the world, and its profits, are allowed 30 days grace for payment of renewal of premium, a cash surrender value of policy, *and a privilege* which has never been offered by any other Company, that of converting Policies into

ANNUITY BONDS,

after the payment of 5 or more annual premiums.

Hitherto, I have been restricted in the very popular Company which I had the honor to represent to *Stock rates alone*, which most of the *Mutual*, and mixed Companies have adopted. This disadvantage, together with the multiplication of many new Companies in this State, who claimed to possess mutual charms, together with the extraordinary attractions presented by the Excelsior induced me to accept the management of that Company, whose plan combines all the popular features of other Companies, represented in this State, without its exceptions, and the additional privilege of converting policies, which the holder can not afford to keep up, or wishes to discontinue, because of the death of those, for whose benefit the policy was secured, into *Annuity Bond* which provides an income to such person(s) *for life, or for a series of years at his option.*

Circulars giving full explanations and any other information, will be cheerfully furnished.

The most liberal arrangements, will be made with first class solicitors, to push the Excelsior forward in the Old North State, to that position which her low rates and most ample security entitle her to occupy.

P. F. PESCUD,
